

## COVID-19 Drive-Up Vaccination Information

- **Don't come if you are sick:** Please do not come to your appointment if you are sick or have symptoms that could be COVID-19.
- **We can't vaccinate you** at the drive-up site if:
  - You have ever experienced an allergic reaction or anaphylaxis to an injectable medicine or vaccine, including the first dose of Pfizer or Moderna COVID-19 vaccine.
  - You have ever had a severe allergic reaction (e.g., anaphylaxis) to something other than a vaccine or injectable medication; such as food, pets, venom, or oral medication
  - You are coming for your second dose of vaccine and do not bring your vaccine card
  - You are not at least 18 years of age
- **We can vaccinate a maximum of 4 people per vehicle:** You will be staying in the car for the entire process and need to be in a **window seat**. If you have a preference for which arm receives the shot, make sure you are seated on the correct side of the car. Left shoulder = driver's side. Right shoulder = passenger side.
- **What to wear:** Wear something that makes it easy to expose an upper arm for your shot.
- **When to arrive:** Please don't come early; early arrivals can create long lines for everyone.
- **Observation:** After your shot, you will be asked to wait in an observation area for either 15 or 30 minutes to make sure you don't have an adverse reaction.
- **Why aren't all vaccine providers wearing gloves?** Gloves are not required for vaccinating, and medical gloves are in short supply. Regulators and medical experts agree that proper hand hygiene is an appropriate option instead.

- **Location:** Sunrise Center at 18901 E Burnside St., Portland, 97233.  
Driveway is only accessible when driving eastbound on Burnside. Turn right into first driveway.
