

Dear HPA! Foster,

Thank you for making your surgery appointment. HPA! will be performing the surgery at our clinic.

Your foster animal is scheduled for a spay/neuter, as well as their FVRCP or DAPP vaccine, rabies vaccine (if they are old enough), microchip, and/or combo test if needed.

Any appointment changes need to be managed by Houston Pets Alive! Please notify dogsurgery@houstonpetsalive.org or catsurgery@houstonpetsalive.org for any changes. Please avoid no-shows or last-minute cancellations.

Please review guidelines on eating before surgery below:

WHAT YOU NEED TO KNOW

HSN Clinic Location: 2800 Antoine #2854, Houston, TX 77092

Arrival time: Drop off is **between 7:00 am and 7:30 am, late drop offs will not be accepted if prior arrangement has not been approved by HPA! Medical Team.**

Pick up time: Please **pick your pet up between 3:00 pm and 4:00 pm.** There are no overnight stays available.

What to do at arrival:

Upon arrival go to the back of the building and ring the doorbell at the **GREEN MEDICAL ENTRANCE DOOR.**

No food or water after 10pm the night before, as this may cause vomiting when anesthetized and can cause them to aspirate while under anesthesia, which is LIFE THREATENING!

After care info: You will get detailed discharge instructions. Be sure to read them and ask any questions!

We are grateful for your support!

-HPA! Medical Team
