

# THOSE AT HIGHER RISK

If you have any of the below conditions, take special care. Please consider worshiping with us online at [calvarymemphis.org/livestream](https://calvarymemphis.org/livestream).

- Severe Obesity
- Diabetes
- High Blood Pressure
- Chronic Kidney Disease
- People Aged 65 years and older

In addition, people with serious heart conditions, asthma or other chronic lung disease, blood disorders, immunocompromise from medications or HIV, or liver disease, and those who live in nursing homes or long-term care facilities are at increased risk of life threatening illness.
