Also, some great ideas are on Cardz for Kidz' Twitter and LinkedIn page!

- Cardz for Kidz is an organization dedicated to uplifting the spirits of hospitalized and/or traumatized children across the globe by delivering inspiring homemade cards. They also provide cards to the elderly.
- A self-addressed envelope will be sent to you along with supplies (if requested) to return filled with your creative cards (cards will be returned to Dottie to mail out all at once with a letter from Lumaverse to the Cardz for Kidz organization). Please don't mail your cards back to the organization – the address to return your cards for this Lumaverse Serves project is below.
- Write positive messages in the cards (**please don't write** messages such as 'Get Well Soon' or anything else referring to a patient's condition since those cards will not be delivered).
- Proudly sign your card – the card means A LOT more to kids when you sign your name and bring personalization to it!
- If you know other languages, please feel free to create some cards in other languages since Cardz for Kidz delivers cards across the globe.
- We'll have a couple of Zoom get-togethers during work to make some cards together, so be on the lookout for those invites! One special get-together will be how to make a simple pop up card, led by Shane Hunt.
- Not the creative type? Here's a Fundly campaign for raising funds for the Cardz for Kidz organization, donate today if you wish! <https://fundly.com/lumaverse-supports-cardz-for-kidz>
- Snap photos during your card making and share with Dottie via email! (dottie.bedell@lumaverse.com)

- The goal is to create as many cards as you're able and send back to Dottie by the October 9th deadline. If each team member creates 7 – 10 cards each, we'll qualify as a Platinum participant with Cardz for Kidz. This organization sends out over 100,000 homemade cards per year and I'm excited we can be a part of this!

Mail completed cards before October 9th to:
