

CARING FOR THE GATHERING SPACE

Responsibilities for those reserving the the Gathering Space or serving as fellowship time hosts:

- If you rearrange to better serve your needs, return items to their original location.
- If you serve special food or beverages please take the leftovers home with you after you've cleaned up. If you can't use your leftovers, check with Jennifer or Kendall as they both provide food on Sunday evenings for hungry students.
- All surfaces that were used should be cleaned with the spray cleaner or with soapy water and wiped off thoroughly. Avoid using products that contain bleach or other harsh chemicals because they damage the surfaces of wood and granite. (The granite polish is just for occasional use.)
- The soap dispenser has dish soap in it for washing up any dishes you use. It is also mild enough for hand washing.
- The BarKeepers Friend can be used as needed for the stainless steel sink. Careful rinsing of the sink will minimize the need for this.
- Tina wash rinsed dishes after worship services. Please take the items to be washed to the lower level kitchen. For all other events the host is responsible for washing dishes.
- The airpots can be washed, rinsed, dried, and left in the marked cupboard.
- Return things to their proper places including unused paper products.
- Refill the juice box bins and place them in the refrigerator so they are cold for the next Sunday.

Your efforts to leave things in as good or better state than you found them will keep our welcoming place looking it's best. As always, many hands make light work.
