User Tips

1. If you plan to use the pool often, consider creating a Signup Genius account and making your reservations before you come to the pool. You can enter your name and contact information in “Settings”. Creating an account will also allow you to edit or delete reservations that you have made.
2. If you are logged in, but you are entering information for another person such as a spouse, child, or guest, in Step 4 you will see a screen like the one below, pre-filled with your contact information. Check the “Display an alternate name on the sign up” box, and enter the other person’s name, while leaving the contact info the same.

The checkbox is checked, and the entire section is highlighted with a red rectangle.
