Two-Factor Authentication Options (6 of 7)

Two-factor authentication is a feature that adds an extra layer of security by asking you to enter a unique security code in addition to your password. You can choose to enter it every time you log in, or only on new devices you haven't logged in with before.

Choose which type of two-factor authentication to enable

None	Google	Text Message	E-Mail
------	--------	--------------	--------

Choose when two-factor authentication is required

All Logins New Devices Only

Validate Code (7 of 7)

A code has been sent to your email on file. To confirm you have access to this email please enter the code below and submit. If you did not receive a code select resend to send it again. If the problem persists go back and select different options or contact the Participant Service Center.

Passcode

K Back Resend Submit >

6. Review and confirm the information you entered in the previous steps. Click Submit if everything is accurate.

7. This next step allows you to add additional levels of security to your online account by enabling Two Factor Authentication. You can choose the method of authentication (none, Google Authenticate, Text Message, E-mail) and the timing of authentication (all logins or only logins from a new device).

8. If you have enabled Two Factor Authentication a passcode will be sent to you. Enter the code you receive and click Submit.

Note: Regardless of Two Factor Authentication settings, as a security measure any time your account is accessed from a new device you will receive an e-mail notification. If you receive a notification and suspect that someone has accessed your account without permission contact your plan administrator immediately.

If you need assistance or have questions, please contact our Participant Service Center at 1-800-716-3742.
