Color options and ordering examples

1. Solid color
Any one color
Ordering examples:
D for a solid D (blue) colored mold
**R** for a solid R (black) colored mold

2. Solid color with glitter
Any one color with glitter/metallic flake.
Ordering examples:
E with Silver Glitter for a solid E (red) colored mold containing silver glitter
**K with Gold Glitter** for a solid K (purple) colored mold containing gold glitter

3. Starburst
Combine up to 4 letter colors in a clear (A) or white (X) base.
Ordering examples:
X = D, E, R & O for X (white) base with dots of D (blue), E (red), R (black) and O (orange)
A = Glow, K for A (clear) base with dots of K (purple) and glow

4. Ripples
Combine up to 4 number colors (X and R OK'ed for Ripples) to create a swirled, semi-mixed effect. Please note that we will use the lightest color selected to act as the base unless specified.
Ordering examples:
1, 9, 11 for colors 1 (pink), 9 (dark grey) and 11 (pale pink) swirled together with 11 (pale pink) as the base
1 = 9, 11 for colors 9 (dark grey), 11 (pale pink) and 1 (pink) swirled together with 1 (pink) specified as the base

Please note that minor color variation is inevitable . Colors may vary slightly between printed materials and actual molds.
