

# VOLUNTEER

## Thank you for volunteering with MICC!

**Minnesota Independence College and Community (MICC)** is a non-profit organization with a proven track record of transforming the lives of individuals and families impacted by autism spectrum disorder and learning differences.

The three-year **MICC College Program** encourages the personal growth of each student through a unique and individualized process. As they participate in independent living skills curricula in our apartment living setting, career certificate programming, and social skills instruction, students gain valuable social and vocational experiences and begin to develop their own community within an ever-changing world setting.

The **MICC Community Program** is a life-long opportunity that provides temporary or ongoing supports for participants to both thrive and remain living independently in the community. Our MICC Community participants are individuals with learning differences and autism spectrum disorders who have successfully completed MICC College and are living independently near the MICC College campus.

The **MICC Careers Program** focuses on vocational skill development and the skills required to get and keep a job. This is done through an individualized person-centered process to obtain access to the services, supports and resources of their choice to achieve their desired outcome. Careers programming and supports are available to participants in both the College and Community Programs.

We invite you to take a [virtual tour](#) of the MICC campus and programs before your volunteer experience!
