Mevo Wireless Camera Streaming Setup

[handwritten: WIFI CONNECTED TO 27CCD]

1. Make sure blue ethernet cable is plugged in the internet in the social hall.

2. Turn on all 3 Mevo cameras by pressing in the on button on the back – press and hold, you will hear a ==BEEP== when it is on. Just because the lights are on doesn't mean it is on, you must hear ==BEEP!==

3. If they need to be charged plug them in to the USB – 4 lights is fully charged. It is up to the clergy if they want to leave them plugged in or not during services. *[handwritten: The battery lasts 6hrs.]*

4. Open Camera iPad ==– password 1859== (press home button to access password screen)

5. The iPad should have a white adapter plugged in that has a charger and the other end of the Ethernet- blue cable, plugged in.

6. Open Mevo Multi-Cam app

7. Connect Cameras (plus sign)

    a. 27CCD center camera - **keep sound off unless you are only using that camera** *[handwritten: blue light on]*

    b. 27CPJ cantor camera

    c. 27CQK Rabbi camera *[handwritten: green light live]*

8. No – I do NOT have WIFI

9. ==Use camera 27CCD as the access point==

10. Once that is connected use that to connect the other 2 cameras

11. Press Done

12. Once they are all connected and the camera positions look ok - you are ready to go Live.

13. If you don't see all three cameras press the play folder (looks at images)

[handwritten: Cameras ▷ Play folder]

14. ==To switch between cameras and images just touch the image of the camera you want to use. To switch out of the picture tap the photo icon on the bottom (looks like a sun/mountains)== and make sure the red box is not on the photo – if it is click the photo and it will go away and a camera will now be on screen.

[handwritten: Image/picture folder]

Sound

15. Make sure sound board is on. If it is not turn switch on in the back right.

16. Open Sound iPad - **password 3871** (press home button to access password screen)

    a. Open App QU-pad (bottom right hand)

    b. Connect

    c. Admin

17. This is the sound software that you really shouldn't need to touch unless you need to mute a mic. Each mic is labeled with the appropriate name/correspondence.

    Live

PoD-L = Rabbi gooseneck

PoD-R = Cantor goose neck

18. Choose either Live on Facebook (Beth El account) or Live on RTMP (our website)

19. You can check the Beth El Website or Facebook at this time to see if you are live. You may need to refresh chrome to get the live

20. During services pay attention and switch camera from Rabbi, Cantor, or Center depending on what view you want to have
    End

21. When services are finished press Live again to Stop.

22. Turn off all cameras and keep plugged in only if they need to be charged. The cameras will beep when they are turned off.

23. Close both iPads.
24. Unplug Ethernet in Social Hall and carefully roll cable back up into sanctuary.

27CPJ = Cantor
27CQK = Rabbi
27CCD = Center
