

## Board of Directors

---

### **Board of Directors**

Board duties are fairly typical of other non-profits, and include organizational governance, financial oversight and fund raising. Board meetings occur every other month. The responsibilities have some flexibility. Ultimately, Count on Kids simply needs smart individuals that want to contribute to our success! Your contribution can come from a variety of different efforts. For example, do you work at a local corporation that provides financial support to the nonprofit if you're a Board Member? That's an easy way to contribute and would free up your time to help in other areas your passionate about!
