

COVID-19 Safe Pickleball Plan

USA Pickleball Association has provided information on the safe return to play and this plan was developed using the information provided. This plan has been reviewed and approved by Silveridge RV Park Management and the policies highlighted in **bold** below are their mandates.

The purpose of this document is to summarize the current best practices that support safe and appropriate recreational play for players during the expected transition period back to regular pickleball activity.

Provided local stay-at-home or shelter-in place mandates are not in force and our courts are available for play, you are nonetheless encouraged to take every precaution and follow these safety recommendations.

Our Commitment

COVID-19 best practices need to be embraced. All pickleball players have a responsibility to limit their own circle of contact and follow social distancing and safe hygiene and cleaning practices. The Silveridge Pickleball Club (Club) is committed to providing the safest activity possible for both physical and mental health. These are extremely challenging times for all of us but it is our collective belief that pickleball can be as safe as any other outdoor activity if common sense safety measures are followed. One of those measures is using Sign Up Genius (SUG) to reserve court time, which will limit the number of players congregating at the courts and if necessary facilitating accurate contact tracing.

DO NOT PLAY IF YOU:

- Are exhibiting any symptoms of the coronavirus as identified by the Centers for Disease Control and Prevention (CDC).
- Have been in contact with someone with COVID-19 in the last 14 days.
- Are a vulnerable individual with serious underlying health conditions as identified by the CDC.

IF YOU DECIDE TO PLAY:

- You must reserve court time for all sessions except round robin play and Club All Play using SUG by visiting the Club's website and clicking on the SUG link on the "Club Information > Court Schedule" page. **This requirement applies to members and non-members of the Club.**
- **At this time outside groups cannot play pickleball at Silveridge per Park rule.**
- The Club strongly recommends you establish a small group (2-10) of players, i.e. a "trusted circle", who you believe are adhering to responsible social distancing and virus protection practices on and off the court. Then, whenever you play, that you always partner with someone from your trusted circle. You may play against opponents outside your trusted circle if you wish. However, the Club recommends that you don't partner with persons outside your trusted circle.
- Wash your hands with soap and water and bring personal use hand sanitizer to the courts.
- Use hand sanitizer to clean and wipe down your pickleballs, paddles and water bottles. Do not share paddles or any other equipment or clothing.
- Bring a personal use water bottle(s) and avoid touching or using public water fountains.
- Bring tissues or a handkerchief for contained sneezing and coughing or consider wearing a mask.
- Consider wearing disposable gloves to the courts and avoid touching court gates, fences, benches, etc.
- Consider wearing disposable gloves during play to avoid picking up pickleballs with your hands.
- Mark your pickleballs with your initials.
- Do not arrive early before your allotted court time. 10 minutes or less prior is appropriate.

COVID-19 Safe Pickleball Plan

DURING PLAY SESSIONS:

- Adhere to social gathering and distancing policies according to the CDC and local authorities.
- Do not behave critically of others if their comfort level differs from yours. Every person's health and safety concerns are different and should be respected.
- Consider bringing your lawn chair to sit on and safely social distance from others. Gathering inside the gazebo at the pickleball courts should only occur if you remain 6 feet apart.
- Maintain a distance of six feet or more from other players whenever possible.
- Try to minimize or avoid touching court gates, benches, fences, etc.
- Take your water bottle and anything you need for your playing session on to the court area with you.
- Enter the gate closest to your court to eliminate crowding of players coming and going.
- Consider playing 'skinny singles' versus doubles. It may even provide better exercise and skill development.
- If you elect to play doubles, consider playing with only those who reside within your household or trusted circle.
- Each player should use their own pickleball to serve. Try not to touch pickleballs belonging to someone else. Use your paddle to transfer the pickleball under the net to your opponent.
- The Club will not be providing pickleballs as long as COVID-19 is still an ongoing health risk. You have to bring your own pickleball to the court. (Note: Two pickleballs will be provided to all members when they pay their annual dues. Additional pickleballs will be available for purchase – 2 for \$5).
- Do not participate in paddle taps at the end of the game. Use your paddle to wave at your opponents at the end of the game while practicing safe distancing.
- No waiting or socializing in the areas between the courts unless you are transitioning to the next court to play.
- Consider using hand sanitizer for your hands and pickleball between games.
- Adhere to CDC guidelines by not touching your face (after handling a pickleball or paddle) while playing.
- Maintain proper social distancing from other players in between games and while not playing.

WHEN PLAY HAS ENDED:

- It is mandatory for each pickleball player to maintain a record of when they played and who (first and last name) they partnered with, in case contact tracing is required.
- Leave the court area as soon as reasonably possible.
- Wash your hands or use hand sanitizer immediately when you finish playing.
- Thoroughly wash your pickleball equipment and other items you have used or touched.
- Inform the Silveridge Pickleball Club by sending an email to silveridgepickleball@gmail.com if you test positive for COVID-19 and have played at the Silveridge RV Park pickleball courts.
