

Adaptive Sports and Recreation

General Reopening Guidelines Updated 10.22.20

- Each activity will be limited to a **MAXIMUM** of 10 people per group (to include participants, staff and instructors/coaches). In order to allow us to maximize the number of participants we are able to serve, only **required** caregivers may be in attendance. For example, a caregiver is welcome to drop you off and wait in the car for you, but if they are not needed for personal care while you are in attendance they will not be able to be in our group.
- Registration is **REQUIRED**. We will not be able to accommodate any walk-up participants.
- All staff and instructors/coaches will be **REQUIRED** to wear procedural masks and face shield/goggles/safety glasses when unable to socially distance 6 feet. Under the Mandatory Masking policy for the city of Jacksonville, participants will be **REQUIRED** to wear a mask during instances when social distancing is not possible. Examples include: during COVID screening and check in, transferring to and from equipment, personal coaching, placing a golf ball, getting fitted and equipped with fishing equipment, etc. This is not a comprehensive list, but examples of things that will require participant masking. The mask will not be required when you are social distanced. Masks must be provided by the participant and if you arrive to an event without one, we will **NOT** be able to serve you. There will be no exceptions to this guideline, so please make sure you are prepared. **ALL masks worn by staff and participants MUST cover the nose and chin completely.**
- There will be a 15 minute “check in” time prior to each event, during which time you are welcome to arrive to be screened. In addition, we will require participants to exit the area when they are done.
- All participants will be screened using the guidelines provided by the CDC as well as temperature checked as they arrive at each activity. The screening questions will be included in each activity registration so you know what you will be asked. Please note that a **YES** response to any question will result in an inability to participate, and while we know you are anxious to get back at it, please be honest and truthful when answering the questionnaire.
- You **must** present a doctor’s note upon your return to programming if:
 - You have exhibited any of the symptoms listed on the COVID questionnaire
 - You have tested positive for COVID
- You **must** quarantine for 14 days prior to returning to programming if:
 - You live with someone who has tested positive for COVID (from date symptoms first appeared)
 - You have been in close contact with someone within the past 10 days at less than 6 feet of distance who is suspected of having or has tested positive for COVID (from date symptoms first appeared)
- Social distancing of 6 feet must be followed by all participants, staff and coaches/instructors. We ask that everyone be aware of your surroundings. We will have visual reminders to help you stay safe.
- Participants will be required to sanitize their hands (sanitizer will be provided) prior to participating in each activity.
- All equipment will be cleaned and sanitized before and after each use.
- During activities that require shared equipment (rugby balls, basketballs, etc.), hand sanitizing will be required before and after, and participants must be mindful **NOT** to touch their face. Participation in any activity that is unable to maintain the required social distancing of 6 feet will necessitate wearing of face masks. Those masks must be provided by the participant and are **REQUIRED** during those activities.
