

Your group will be harvesting Beets. The field is on land at a tree nursery, well back off the road.

What to Bring

Beets are soft, and this is a very clean field. Wear whatever you want, and dress for the weather. Looks to be partly cloudy and pleasant.

Wear a pair of gloves like these. Rubber palm and soft back. They protect the hands while allowing for dexterity.

Bring Water and Snacks. No potable water on site. We have water for hand washing. There is a clean porta potty on site.

Directions

Get onto Old Snohomish-Monroe Rd. Either from Snohomish or Monroe.

Turn south onto Treosti Rd. At that corner are signs for “Dairyland” and “Craven Farm”

I will meet you at that turn off and show you the way in. Jim Vanden Brook also knows the way.
