

Jeffrey Open Space Trail:

This Park is a long and narrow space stretching North-South adjacent to Jeffrey Road. We will be located at the intersection of Fanpalm and Great Lawn inside the neighborhood just south of Long Meadow (Bryan Avenue). Parking is free and plentiful.

The Stonework location was very popular as it offered many posing options for all group sizes and allowed pets to be incorporated into the shoot.

Please see the screenshot below or use the QR Code above for location information and directions how to pass through the neighborhood.

The sample photos here were taken at this location. The photo above is at the Stonework location and the photo to the left is at the Greenery location.

Shape Shift Studios (www.shapeshift.studio)

This is a working studio space in Santa Ana just west of the 55 Freeway at McFadden Ave. It is in a small light industrial complex with ample parking. Look for the Beckman Lady Hoops signage at the entrance door.

BLH will be hosting most of our photo sessions at this location. As an air-conditioned indoor space, it offers protection from the weather and direct sunlight which caused havoc with makeup and overall comfort. It also offers bathroom facilities and a well-lighted makeup station for last minute touch ups.

There will be two backdrop scenes setup with props. Screenshots of the backdrops are shown to the right.

Due to COVID limitations, the number of people allowed to be in the studio (including the crew) is limited so scenes are setup for families of four but five can be accommodated if we are notified beforehand via email at: BeckmanLadyHoops@gmail.com.

Unfortunately, we are not allowed to have Pets in the studio, so we recommend Session #1 on October 16th. If that does not work for you, please email us to discuss options.

A video tour of "Studio A" is available on their website if you are interested in detailed amenities.
