

Looking for a fun and safe way to volunteer this summer?

**Join us at Neighborhood House  
Fresh Produce Pickups!**

**Fresh Produce Pickups are a safe way  
for you to volunteer in the community.**

- From July to October 2021, we are using a curbside pickup model at three St. Paul locations to get produce out to the community safely.
- Volunteers, staff, and participants will be socially distanced throughout the distribution events.

**Masks are required.**  
We will have face masks, hand sanitizer, and gloves available.

Volunteers will bag produce across 6ft. tables to maintain social distancing

Produce will be distributed to participants in cars to limit in-person contact

**Through Fresh Produce Pick-ups in 2020**

**1022**

Households served

**4,521**
